# Note for using BS Ink

When you use a media of 1mm thickness or less with BS Iink, be sure to set the head height to Low.
If you set the head height to Mid and use, the head gap (the height of the head nozzle face from the media) widens too much and ink spatters. In this case, we cannot guarantee the image quality.

打印机使用 BS 墨水注意事项

当您将 1 毫米以下厚度的介质和 BS 墨水配套使用时，请务必将喷头高度设定在 "Low" 上。
如果将喷头高度设定在 "Mid" 上使用，会造成喷头缝隙（打印机到喷头喷嘴面的高度）过大，有时会导致墨滴飞溅出来，无法保证图像质量。
